PROJECT PRICE GUIDE

— 2024 —

WILLIAM'S

HANDCRAFTED

Thank you for picking up a copy of the William's Handcrafted Price Guide. This booklet will layout the AVERAGE project cost for various types of cabinetry and furniture.

When planning your project, keep in mind additional elements beyond cabinets needed to complete your project. Countertops, backsplashes, painting, electrical, flooring and other trades are often involved in cabinetry projects. Being aware of the additional trades can help prevent surprises when you are ready to build your dream project.

William's Handcrafted can help you determine these extra costs through our design packages. Information in this guide comes from William's Handcrafted projects completed between 2020 and 2023.

3 – KITCHEN CABINETS

4 – BUILT-INS

5 – CLOSETS

6 – VANITIES

7 – WET BARS

8 – WINDOW SEATS

9 – CASEWORK FURNITURE

10 – CASUAL TABLES

11 – DINING TABLES

KITCHEN CABINETS

High end custom kitchen cabinets are crafted from hardwood and are expertly designed to fit your lifestyle. Cabinets are built to seamlessly interact with appliances and come in a variety of styles to perfectly complement your home. Most homeowners are opting for either a traditional inset face frame cabinet or a full overlay frameless style cabinet. Cabinets are finished commercial grade coatings and high quality drawer boxes and hardware complete a luxury kitchen.

Popular Additions: Lighting | Specialty Storage Drawers | Slide-Out Trays

AVERAGE COST: \$55,200

BUILT-INS

Built-ins are a great way to add both beauty and storage to your home. The most common built-ins feature a combination of open shelving and doors. Frequently, built-ins are painted on site to best match the trim work. This helps the cabinets look more built-in and blend better with the existing elements of the room. Adding lighting and hardwood accents like a countertop are a great way to add extra detail and make a truly unique built-in.

Popular Additions: Electrical & Lighting | Painted Finishes | Accent Paneling

AVERAGE COST: \$15,400

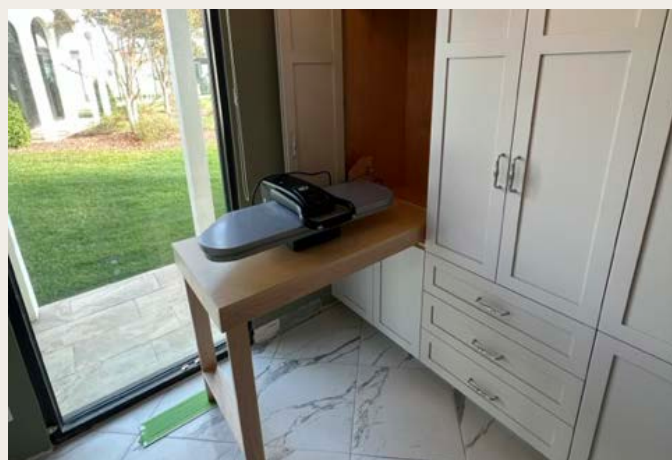

CLOSETS

Custom closets are a highly functional and stylish addition to your master suite. Combining hanging storage, shelves, and drawers creates a versatile system to cover a wide variety of storage needs. Custom closets frequently include doors to conceal the contents from view. Many projects also incorporate custom lighting elements like side lights and lighted closet rods to illuminate the interior. These lights turn on softly when you open the door to add useful and elegant illumination in the closet.

Popular Additions: Lighting | Slide-Out Accessories | Specialty Storage Units

AVERAGE COST: \$26,400

VANITIES

Custom bathroom vanities offer dense storage features and nearly endless size options. Many clients use their vanity to add a pop of color to their bathrooms. Vanities are specially constructed to accommodate for sinks and plumbing. Clients enjoy custom drawers for makeup, hairdryers, and consumables. Some vanities also include concealed storage compartments to hide jewelry and other valuables you need regular access to.

Popular Additions: Integrated Outlets | Specialty Storage Drawers | Slide-Out Trays

AVERAGE COST: \$7,700

WET BARS

Bars are typically small in footprint while also being a main focus in the room. This makes them a fun place to add lots of detail without breaking the bank on the overall project. Most bars include storage for cold and room temperature drinks, snack bowls, and glasses. Clients like implementing glass shelves or doors to show off glasses or bottles. Some wet bars also include small appliances like microwaves, ice makers, refrigerators and beverage fridges.

Popular Additions: Bottle Storage | Glass Doors & Shelves | Lighting

AVERAGE COST: \$17,600

WINDOW SEATS

Built-in window seats can complete a quaint sitting area or a cozy breakfast nook. They often include drawers or lids to store shoes, blankets, or bags. Window seats can be built in breakfast rooms or dormer window openings. They can also be built in an L-shape to fit around a circular table and add much needed seating space without taking up the floor space of traditional chairs or benches. Clients often finish off a window seat with a custom upholstered seat cushion for added comfort.

Popular Additions: Lift-Up Lids | Upholstered, Cushioned Seats | Drawers

AVERAGE COST: \$6,100

CASEWORK FURNITURE

Casework furniture is a general category for most furniture. Free-standing bookcases, dressers, entertainment consoles, and sideboards are just a few examples of casework furniture. Custom furniture is a great option when you need a specific size or finish that is not available commercially. These pieces are constructed with incredible care and craftsmanship to ensure they last for generations. Casework allows for unique woods and grain patterns to make a one of a kind piece.

Popular Additions: Specialty Finishes | Exotic Wood | Custom Storage Features

AVERAGE COST: \$7,100

CASUAL TABLES

Casual tables are a general category of tables that include everything except dining tables. These often include end tables, coffee tables, and console tables. By commissioning a custom table, you can choose sizes, woods, finishes, and designs that you cannot find in stores. A custom end table is a great option when you need to fit the table to a specific couch or loveseat. Coffee tables can add warmth and storage to your living room.

Popular Additions: Specialty Finishes | Exotic Wood Species | Custom Sizes

AVERAGE COST: \$2,200

DINING TABLES

Few other elements recall feelings of home and family better than a dining table. Custom dining tables can be sized to fit your unique space requirements while also working to maintain your desired seating capacity. Hand picked hardwoods combine with artistic bases to provide a sturdy and long lasting table that can be passed on through generations. Occasionally clients will provide wood from their family property to incorporate in the table.

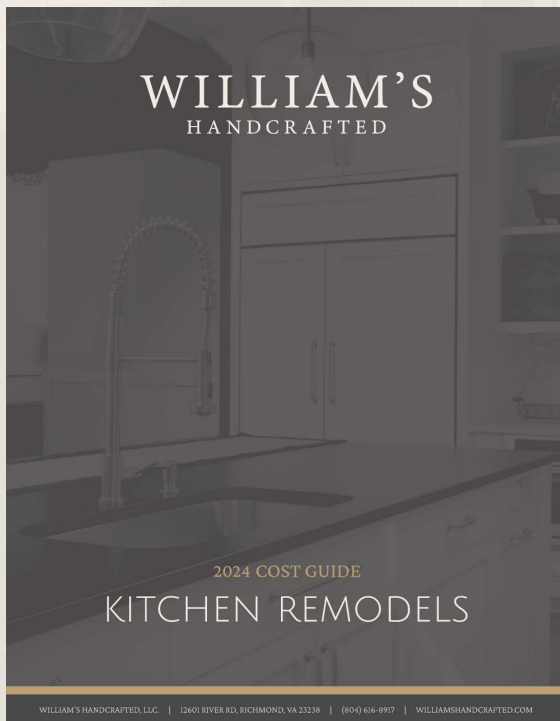

Popular Additions: Specialty Finishes | Exotic Wood Species | Unique Table Bases

AVERAGE COST: \$5,100
